Case Study: Video Banking to Lower Operation Cost and Enhance Customer Satisfaction

Video banking is a term used for performing banking transactions or consultations via a remote video connection. With an interface similar to any regular video-chatting platform like Skype, customers can connect with bank representatives for product details, apply for loans and obtain information on other larger transactions.

Speaker:
- Aparna Kumar, Chief Information Officer, HSBC India

15:00 – 15:30

BOE Live:
- BOE Mini LED
